@stgabrielsleigh

We have just launched our new school Twitter account - @stgabrielsleigh – follow us now!

@stgabrielsleigh will be used principally to advertise the excellent work by staff, children, parents and governors. The account will be used primarily as an information page to let you know what is going on in school, any messages regarding sporting events may contain links to our school website and class blogs. We must stress that twitter will not be used as a direct communication tool. **All** school enquiries should still be directed towards the school office. School will not respond to any comments made on Twitter. Any inappropriate content will be deleted and its users will be removed, blocked, and, depending on the nature of the comment, reported to Twitter. Furthermore, incidents of a more serious nature may be reported to the appropriate authority.

@stgabrielsleigh will not allow followers under the age of 18 and will limit its followers to teaching staff's professional accounts, Governors, other Primary Schools and parents (of St Gabriel's Catholic Primary School children). It will block followers found to be under the age of 18 and unrelated to the school.

We look forward to gaining more followers so that we can keep you up-to-date with the fantastic work going on at St Gabriel's.
