

# Emotionally Friendly Schools (EFS)

Saint Gabriel's Primary school is currently undertaking an accreditation to become an "Emotionally Friendly School"

At St Gabriel's, we are committed to creating an emotionally friendly environment that nurtures your child's emotional well-being. Over the next academic year, we will be gathering information towards this accreditation and keeping you updated with the journey along the way. The accreditation will look at the following:

-  Emotionally Supportive Staff: How our dedicated teachers and staff are trained to understand and support your child's emotional needs.
-  Community Engagement: How the school fosters strong bonds within our school community, where everyone feels heard and valued.
-  Holistic Learning: Our curriculum is designed to develop not only academic skills but also emotional intelligence, helping students become well-rounded individuals.
-  Increased Resilience: Our curriculum and interventions help students build resilience, equipping them to handle life's challenges with confidence.
-  Improved Self-Esteem: We empower students to feel good about themselves, boosting their self-esteem.
-  Positive Relationships: Your child will form healthy, positive relationships with peers and teachers.
